

# HARESTANE CARE HOME

 **PRIORITY**  
CARE

We are passionate about ensuring the standards in our homes are of the highest level at all times. We constantly strive to develop and improve our service, always looking for more ways to make the time you and your family spend with us an enjoyable, fulfilling and enabling experience.

Three generations of our own family work in our homes and it is easy to see that caring is in our nature. As a family we pride ourselves on the quality of care our clients receive every single day.

Andrew Prior Esq., Director

Andy Prior, Director

Veronica Gibson, Director

---

Harestane Care Home is situated on the northern fringe of Dundee, set in landscaped gardens with woodland to the rear of the grounds, affording an attractive and peaceful environment. There is a meandering walk through the gardens ideal for sunny days.

*Each bedroom benefits  
from garden views.*

## Facilities at Harestane

Being newly refurbished, Harestane's facilities are second to none. Throughout the refurbishment process we constantly asked ourselves *'What will truly benefit our clients and what will make this a real home from home?'*. We feel that the results speak for themselves, with four modern, attractive, homely lounges, two of which have french doors leading directly to the beautiful gardens. There are electric recliner chairs for added comfort and even Nintendo Wii consoles just in case anyone feels like a spot of tennis... There are two quiet lounges where clients can enjoy their newspaper or favourite book as well as two family lounges equipped with comfortable couches, a dining area and tea and coffee making facilities for the use of visiting families. These are ideal should visitors wish extra space when visiting with grandchildren and extended family.

The bedrooms have been decorated and furnished to the highest standard. Clients are encouraged and helped to personalise their rooms with their own belongings and pictures to make it feel home.

As well as individual en-suite facilities, there are four assisted wet rooms and two assisted bathrooms.

Nursing and care staff are on duty 24 hours a day. On-going training from induction to further professional development is an integral part of the Home's philosophy to continually improve standards of care.

Client centred activities are offered on a daily basis.

Qualified catering staff provide varied menus which are assessed for nutritional value and dieticians are consulted whenever specialist dietary requirements arise. Clients are consulted on arrival at the home regarding food likes/dislikes and this is reviewed regularly with them.

If you have any questions please do not hesitate to contact us at any time using the contact information below.

Please visit our website for more information or refer to our 'Service User Guide'.

[www.priority-care.co.uk](http://www.priority-care.co.uk)

Our pool is at a constant one metre depth (waist height) enabling clients who are not confident swimmers to feel the vast benefits of hydrotherapy. Hydrotherapy is especially beneficial to those suffering the affects of arthritis. There is also a ramp with handrails allowing access to the pool without the requirement of hoist equipment.

Once in the water, clients will enjoy water temperatures of 34 - 35°C which is on a par with a warm bath. In case they want to take it easy and unwind, there is a whirlpool jet spa with seating built

into the pool. For those wishing simply to watch the world go by we have created a great viewing/cafe area where clients and their family are always welcome to grab a comfy seat and enjoy a coffee.
